

SCENARIO AND USE CASE

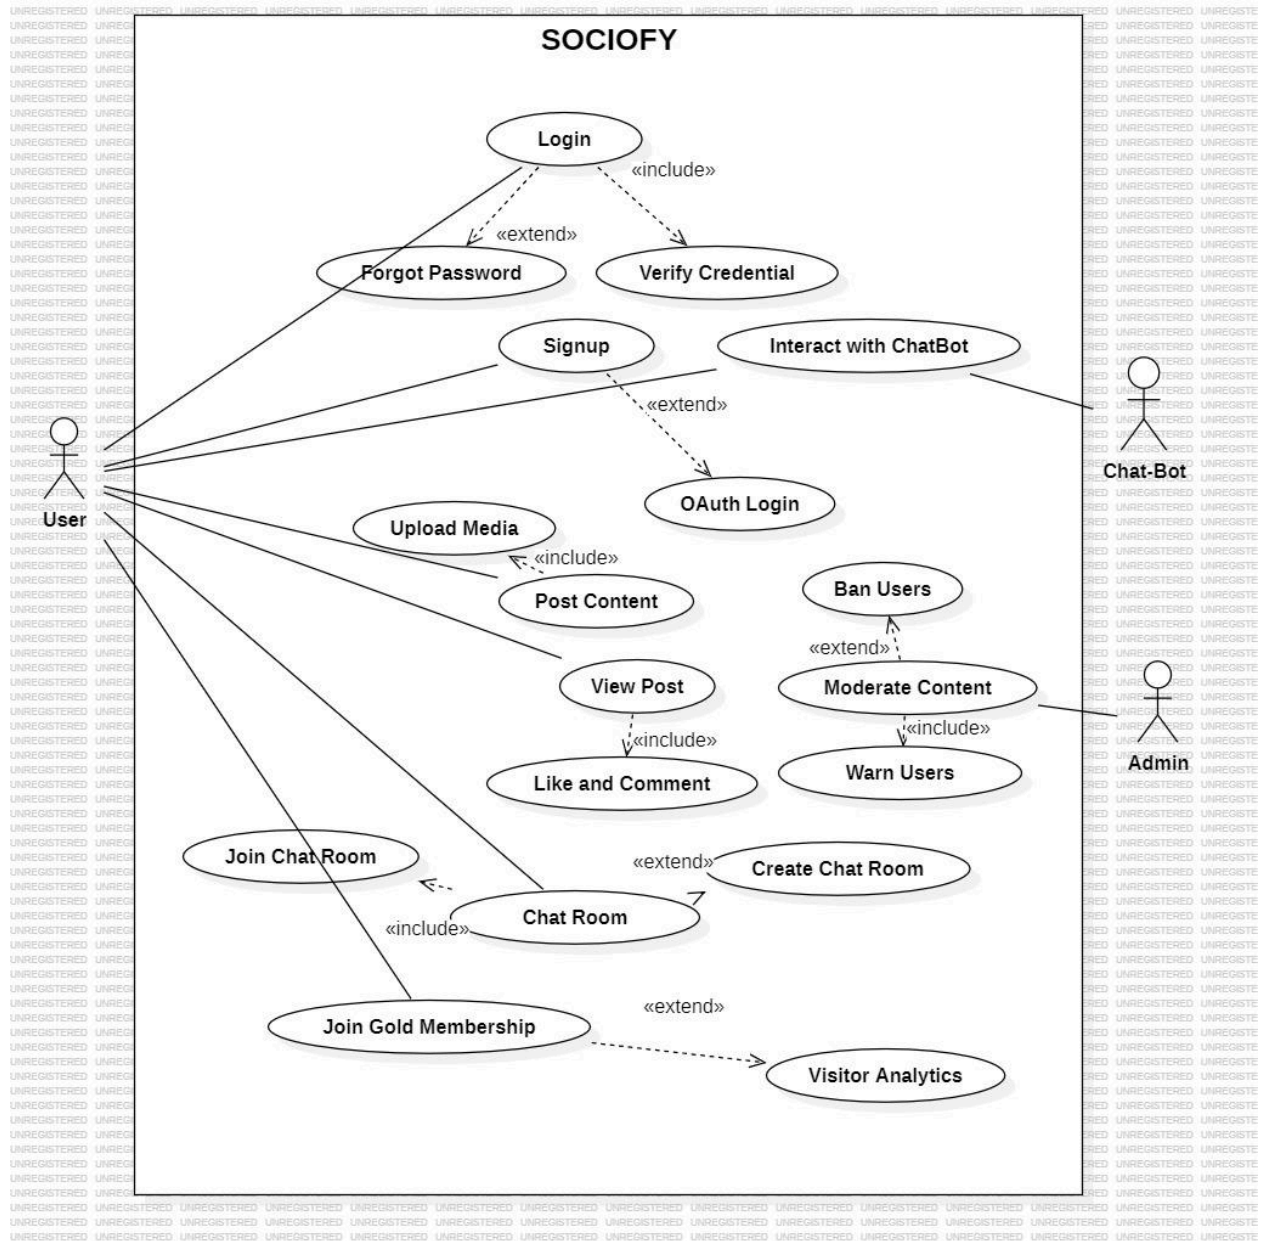

FIGURE - USE CASE DIAGRAM

Scenario 1: User Login

Actors: User, System

Precondition: User has a registered account

Steps:

1. The user navigates to the **login page**.
 2. The user enters their **email and password**.
 3. The system validates the credentials.
 4. If valid, the system **logs in the user and redirects** to the homepage.
 5. If invalid, an **error message is shown**.
-

Scenario 2: Posting Content

Actors: User, System

Precondition: User is logged in

Steps:

1. The user clicks the **"Create Post"** button.
 2. The user **writes text and uploads images/videos** (optional).
 3. The user sets the **privacy settings** (Public/Friends Only/Private).
 4. The user clicks **"Post"**.
 5. The system **saves the post** and displays it in the user's feed.
-

Scenario 3: Gold Member Viewing Visitors

Actors: Gold Member, System

Precondition: User has a **Gold Membership**

Steps:

1. The user navigates to their **profile page**.
 2. The user clicks **"View Visitors"**.
 3. The system **fetches and displays** the list of visitors.
 4. If the visitor has **enabled anonymity**, their name is hidden.
-

Scenario 4: Admin Warning/Banning a User

Actors: Admin, System

Precondition: User violates platform rules

Steps:

1. The admin navigates to the **admin panel**.
2. The admin searches for the **violating user**.
3. The admin selects "**Warn**" or "**Ban**".
4. If **Warned**, the system sends a **notification to the user**.
5. If **Banned**, the system **logs the action and restricts access**.
